

ESWEEK 2011 Call for Tutorials

Embedded Systems Week (ESWEEK) is an exciting event which brings together conferences, tutorials, and workshops centered on various aspects of embedded systems research and development. Three leading conferences in the area - CASES, CODES+ISSS, and EMSOFT – will take place at the same time and location, allowing attendees to benefit from a wide range of topics covered by these conferences and their associated tutorials and workshops. This year ESWEEK 2011 (<http://www.esweek.org>) will be held in Taipei, Taiwan Oct 9-14, 2011.

ESWEEK invites half-day tutorials, in the morning and in the afternoon of October 09, 2011. ESWEEK tutorials are widely attended and give plenty of dissemination opportunities to consolidated R&D work. Tutorial proposals are invited on all topics relevant and interesting to the ESWEEK community.

ESWEEK 2011 Tutorial Chair: Miguel Miranda, IMEC Belgium (miguel.miranda@imec.be)

Submission Details:

- Proposals should be submitted at the latest by **May 15th, 2011, 17h00 PST**
- 2-page maximum PDF file, including the following information:
 - title;
 - abstract (max 200 words);
 - organizers and speakers with short bio and affiliation;
 - list of topics to be covered;
 - in case the tutorial has been previously held, provide information on the conference, date, and expected number of attendees.
- Please send your proposals by email addressed to Miguel Miranda (miguel.miranda@imec.be), and write "[ESWEEK 2011] Tutorial Proposal" on the e-mail subject line.
