## Preliminary Call for Papers

- CASES
- CODES+ISSS
- EMSOFT
- IoT
- Symposia
- Workshops
- Tutorials
- 

### About Embedded Systems Week (ESWEEK)

Embedded Systems Week (ESWEEK) is the premier event covering all aspects of embedded systems and software. By bringing together three leading conferences (CASES, CODES+ISSS, EMSOFT), a special track on Internet of Things (IoT), 3 symposia (ESTIMedia, RSP, NOCS) and several workshops and tutorials, ESWEEK allows attendees to benefit from a wide range of topics covering the state of the art in embedded systems research and development.

### One Registration, three Conferences !

Registered attendees will be allowed to attend sessions in the other conferences (CASES, CODES+ISSS, EMSOFT) for free. Please note that tutorials, symposia and workshops may require separate registration.

#### Abstract Submission:

March 31, 2017

#### Full Paper Submission & Tutorial Proposals:

April 7, 2017 (firm deadline)

#### Workshop Proposals:

March 10, 2017

#### Conference:

October 15-20, 2017

Lotte Hotel Seoul, South Korea

## CASES

**International Conference on Compilers, Architectures, and Synthesis for Embedded Systems**

CASES is a premier forum where researchers, developers and practitioners exchange information on the latest advances in compilers and architectures for high-performance, low-power embedded systems. The conference has a long tradition of showcasing leading edge research in embedded processor, memory, interconnect, storage architectures and related compiler techniques targeting performance, power, predictability, security, reliability issues for both traditional and emerging application domains. In addition, we invite innovative papers that address design, synthesis, and optimization challenges in heterogeneous and accelerator-rich architectures.

**International Conference on Hardware/Software Codesign and System Synthesis**

The International Conference on Hardware/Software Codesign and System Synthesis is the premier event in system-level design, modeling, analysis, and implementation of modern embedded and cyber-physical systems, from system-level specification and optimization down to system synthesis of multi-processor hardware/software implementations. The conference is a forum bringing together academic research and industrial practice for all aspects related to system-level and hardware/software co-design. High-quality original papers will be accepted for oral presentation followed by interactive poster sessions.

Symposia

## Tutorials

## Workshops

## EMSOFT

**International Conference on Embedded Software**

The ACM SIGBED International Conference on Embedded Software (EMSOFT) brings together researchers and developers from academia, industry, and government to advance the science, engineering, and technology of embedded software development. Since 2001, EMSOFT has been the premier venue for cutting-edge research in the design and analysis of software that interacts with physical processes, with a long-standing tradition for results on cyber-physical systems, which compose computation, networking, and physical dynamics.

Internet-of-Things

## IoT

The Internet of Things (IoT) promises to revolutionize fields ranging from health care to manufacturing to personal living by connecting the Internet to physical things. Embedded computing is central to the achievement of the IoT vision – advanced computation, communication, and storage must be delivered in a safe, secure, and reliable manner at extremely low energy levels. The IoT special day is devoted to research on advanced IoT systems. It will provide a forum for academia and industry to present and discuss innovative ideas and solutions related to all facets of internet-of-things.

Keynotes

**Journal-integrated Publication Model:** ESWEEK 2017 will introduce a journal-integrated publication model where the majority of papers will be published in the ACM Transactions on Embedded Computing Systems (TECS).

## ESWEEK 2017 Chairs

- Lothar Thiele, Swiss Federal Institute of Technology, CH (General Chair)
- Soonhoi Ha, Seoul National University, KR (Vice General Chair)
- Jörg Henkel, Karlsruhe Institute of Technology, DE (Past Chair)

## ESWEEK Conference Program Chairs

### CASES

- Laura Pozzi, USI Lugano, CH
- Tulika Mitra, National University of Singapore, SG

### CODES+ISSS

- Andy Pimentel, University of Amsterdam, NL
- Aviral Shrivastava, Arizona State University, US

### EMSOFT

- Robert de Simone, INRIA Sophia-Antipolis, FR
- Björn Brandenburg, MPI for Software Systems, DE

## ESWEEK Organizational Chairs

### Local Arrangement Chairs

- Sungjoo Yoo, Seoul National University, Seoul, KR
- Hyunok Oh, Hanyang University, Seoul, KR

### ESWEEK Conference Chair

- Soonhoi Ha, Seoul National University, Seoul, KR

### IoT Chair

- Prabal Dutta, University of Michigan, US

### Finance Chair

- Naehyuck Chang, Korea Institute of Science and Technology, KR

### Workshop Chair

- Stephen A. Edwards, Columbia University, US

### Tutorials Chair

- Rainer Dömer, University of California, Irvine, US

### Publication Chair

- Linh Thi Xuan Phan, University of Pennsylvania, US

### Web Chair

- Sudeep Pasricha, Colorado State University, US

### Publicity Chair

- Lars Bauer, Karlsruhe Institute of Technology, DE

### Industry Liaison Committee Chair

- Andreas Herkersdorf, Technical University of Munich, DE

### Awards Chair

- Petru Eles, Linköping University, SE
