- Tutorials

About Embedded Systems Week (ESWEEK)

Embedded Systems Week (ESWEEK) is the premier event covering all aspects of embedded systems and software. By bringing together three leading conferences (CASES, CODES+ISSS, EMSOFT), a special IoT Day, two symposia (RSP, NOCS), and hot-topic workshops and tutorials, ESWEEK presents attendees a wide range of topics unveiling the state of the art in embedded systems design and HW/SW architectures.

One Registration, three Conferences!

Registered attendees are entitled to attend sessions of all conferences CASES, CODES+ISSS, EMSOFT, and the IoT Day. Symposia, workshops and tutorials require separate registration.

International Conference on Compilers, Architectures, and Synthesis for Embedded Systems

CASES is a premier forum where researchers, developers and practitioners exchange information on the latest advances in compilers and architectures for high-performance, low-power embedded systems. The conference has a long tradition of showcasing leading edge research in embedded processor, memory, interconnect, storage architectures and related compiler techniques targeting performance, power, predictability, security, reliability issues for both traditional and emerging application domains. In addition, we invite innovative papers that address design, synthesis, and optimization challenges in heterogeneous and accelerator-rich architectures.

CASES Program Chairs
Tulika Mitra, National University of Singapore, SG
Akash Kumar, Technical University of Dresden, DE

International Conference on Embedded Software

EMSOFT is the ACM SIGBED International Conference on Embedded Software (EMSOFT) brings together researchers and developers from academia, industry, and government to advance the science, engineering, and technology of embedded software development. Since 2001, EMSOFT has been the premier venue for cutting-edge research in the design and analysis of software that interacts with physical processes, with a long-standing tradition for results on cyber-physical systems, which compose computation, networking, and physical dynamics.

EMSOFT Program Chairs
Björn Brandenburg, MPI for Software Systems, DE
Sriram Sankaranarayanan, University of Colorado Boulder, US

International Conference on Hardware/Software Codesign and System Synthesis

The International Conference on Hardware/Software Codesign and System Synthesis is the premier event in system-level design, modeling, analysis, and implementation of modern embedded and cyber-physical systems, from system-level specification and optimization down to system synthesis of multi-processor hardware/software implementations. The conference is a forum bringing together academic research and industrial practice for all aspects related to system-level and hardware/software co-design. High-quality original papers will be accepted for oral presentation followed by interactive poster sessions.

Workshops

EMSOFT Program Chairs
Aviral Shrivastava, Arizona State University, US
Sudeep Pasricha, Colorado State University, US

Journal Track:
- Abstract Submission: March 27, 2018
- Full Paper Submission: April 3, 2018 (firm)
- Notification of Acceptance: July 1, 2018

Work-in-Progress Track:
- Paper Submission: June 6, 2018 (firm)
- Notification of Acceptance: July 1, 2018

Workshop Proposals: March 27, 2018
Tutorial Proposals: April 3, 2018

ESWEEK 2018 has a dual publication model with two tracks: Journal track papers will be published in IEEE Transactions on Computer-Aided Design of Integrated Circuits and Systems, and Work-in-Progress track papers will be published in the ESWEEK Proceedings.

http://www.esweek.org/author-information

www.esweek.org
Paper Process
ESWeek 2018 continues a dual publication model comprising two tracks, namely the Journal track and the Work-in-Progress (WiP) track. Journal track papers, which are full-length (10-page) papers describing mature work, will be published in IEEE Transactions on Computer-Aided Design of Integrated Circuits and Systems (TCAD). The WiP track papers, which are short (2-page) papers representing not-yet-mature but promising research work, will be published in the ESWEWEEK proceedings and will be listed as regular publications within the IEEE and/or ACM digital libraries. Authors of WiP papers have the opportunity to publish the extended final form of their work when it has matured in any conference or journal they prefer. Journal papers and WiP papers are mutually exclusive, i.e., a work can only be in submission in one of the two tracks. For more information, please refer to http://www.esweek.org/author-information.

Call for Workshops and Tutorials

Call for Workshop Proposals
ESWEEK 2018 will host several workshops on Oct. 4/5th and is soliciting proposals for new and recurring workshops. ESWEEK workshops are excellent opportunities to bring together researchers and practitioners from different communities to share their experiences in an interactive atmosphere, and to foster collaboration for new and innovative projects.

We invite you to submit workshop proposals on any topic related to the broad set of research, education, and application areas in embedded systems before the deadline of March 27, 2018.

Workshop Chair
Muhammad Shafique, Vienna University of Technology, AT

Call for Tutorial Proposals
ESWEEK 2018 is looking for high-quality, timely tutorials to enrich its technical program. Tutorials offer a unique opportunity where presenters can interact closely with attendees and attendees can gain in-depth knowledge on a specific topic. Tutorials on all topics related to embedded system design, analysis and development are welcome. ESWEEK 2018 tutorials will take place on Sept. 30th, and can be either be half day or full day, lecture style or hands on labs.

We invite you to submit tutorial proposals before the deadline of April 3, 2018.

Tutorials Chair
Andreas Gerstlauer, University of Texas Austin, US

ESWEEK 2018 General Chairs
- Soonhoi Ha, Seoul National University, KR
- Petru Eles, Linköping University, SE
- Lothar Thiele, Swiss Federal Institute of Technology, CH

ESWEEK Conference Program Chairs
CASES
- Tulika Mitra, National University of Singapore, SG
- Akash Kumar, Technical University of Dresden, DE

CODES+ISSS
- Aviral Shrivastava, Arizona State University, US
- Sudeep Pasricha, Colorado State University, US

EMSOFT
- Björn Brandenburg, MPI for Software Systems, DE
- Sriram Sankaranarayanan, Univ. of Colorado Boulder, US

ESWEEK Organizational Chairs
Local Arrangement Chairs
- Luciano Lavagno, Politecnico di Torino, IT
- Enrico Bini, University of Torino, IT

ESWEEK Conference Chair
- Luciano Lavagno, Politecnico di Torino, IT

Finance Chair
- Mohammad A. Al Faruque, Univ. of California Irvine, US

Workshop Chair
- Muhammad Shafique, Vienna Univ. of Technology, AT

Tutorials Chair
- Andreas Gerstlauer, University of Texas Austin, US

Publication Chair
- Roman Lysecky, University of Arizona, US

Web Chair
- Chun Jason Xue, City University of Hong Kong, HK

Publicity Chairs
- Lars Bauer, Karlruhe Institute of Technology, DE
- Ramesh Karri, New York University, US

Industry Liaison Committee Chair
- Andreas Herkersdorf, TU Munich, DE

Awards Chair
- Jürgen Teich, Friedrich-Alexander University Erlangen-Nürnberg, DE

Panel Chair
- Samarjit Chakraborty, Technical Univ. of München, DE

IoT Chair
- Chenyang Lu, Washington University in St. Louis, US
