

## Embedded Systems Week

[www.esweek.org](http://www.esweek.org)

October 10-15, 2021

Virtual Conference

### Call for Workshop Proposals

#### About Embedded Systems Week (ESWEEK)

Embedded Systems Week (ESWEEK) is the premier event covering all aspects of hardware and software design for smart, intelligent and connected computing systems. By bringing together three leading conferences (CASES, CODES+ISSS, EMSOFT), one symposium (NOCS), and several workshops and tutorials, ESWEEK allows attendees to benefit from a wide range of topics covering the state of the art in embedded systems research and development.

#### One Registration for Conferences, Symposium and Workshops

Registered attendees can attend sessions in any of the ESWEEK conferences (CASES, CODES+ISSS, EMSOFT), the NOC symposium, tutorials and workshops.

#### Workshop Proposal Submission Deadline:

April 16, 2021

**Conference:** October 10-15, 2021

**Workshops:** October 14-15, 2021

**Covid-19 planning:** Given the continued uncertainty, the next ESWEEK is currently planned as a virtual event. We will, however, closely monitor the situation and if it improves significantly consider a hybrid in-person/virtual event in an appropriate location and venue that will be announced well in advance. In all cases, virtual attendance and remote presentations of accepted papers will be possible. Please watch the website or social media channels for updates.

### Workshop Proposals

ESWEEK 2021 will host several workshops on October 14/15th and is soliciting proposals for new and recurring workshops. Workshops will be hosted on the virtual platform (and venue, if any) provided by ESWEEK. ESWEEK workshops are excellent opportunities to bring together researchers and practitioners from different communities to share their experiences in an interactive atmosphere and to foster collaboration for new and innovative projects. We invite you to submit workshop proposals on any topic related to the broad set of research, education, and application areas in embedded systems. Proposals should be submitted before the **deadline of April 16, 2021**.

#### Submission Details:

2-page maximum PDF file, including the following:

- A concise title of the workshop.
- Description of the topics and specific issues that the workshop will address, how the workshop complements ESWEEK conferences and symposium, and why the workshop theme is relevant.
- Expected length/duration and format of the workshop (regular paper presentations, poster presentations, invited talks, panel discussions, demo sessions, or other ideas to promote active exchange of ideas).
- Organizers with short bio, affiliation and their expertise in the proposed topic(s).
- Expected number of participants.
- In case the workshop has been previously held, provide information to show that the previous edition(s) were successful in terms of paper submissions and/or attendance.
- Follow-up plans (if any) to disseminate the ideas from the workshop, for example through position paper or journal special issue. Potential proceedings, if any, are the responsibility of the workshop organizers to organize independently from ESWEEK.

Please submit your workshop proposal by email to the ESWEEK 2021 Workshop Chair Patricia Derler (email: [patricia.derler@gmail.com](mailto:patricia.derler@gmail.com)) with "[ESWEEK 2021] Workshop Proposal" on the e-mail subject line.
