

# Embedded Systems Week

[www.esweek.org](http://www.esweek.org)

October 10-15, 2021  
Virtual Conference

## Call for Special Session Proposals

- CASES
- CODES+ISSS
- EMSOFT
- NOCS
- Workshops
- Tutorials
- 

### About Embedded Systems Week (ESWEEK)

Embedded Systems Week (ESWEEK) is the premier event covering all aspects of hardware and software design for smart, intelligent and connected computing systems. By bringing together three leading conferences (CASES, CODES+ISSS, EMSOFT), a symposium (NOCS), and hot-topic workshops and tutorials, ESWEEK allows attendees to benefit from a wide range of topics covering the state of the art in embedded systems research and development.

### One Registration for Conferences, Symposium and Workshops

Registered attendees can attend sessions in any of the three conferences (CASES, CODES+ISSS, and EMSOFT), the NOC symposium, workshops, and tutorials.

**Special Session Proposals:**  
April 30, 2021

**Conference:**  
October 10-15, 2021

**Covid-19 planning:** Given the continued uncertainty, the next ESWEEK is currently planned as a virtual event. We will, however, closely monitor the situation and if it improves significantly consider a hybrid in-person/virtual event in an appropriate location and venue that will be announced well in advance. In all cases, virtual attendance and remote presentations of accepted papers will be possible. Please watch the website or social media channels for updates.

## Special Session Proposals

We invite you to submit special session proposals on any topic related to the broad areas of interest of ESWEEK and beyond. The special session should cover a topic that is contemporary, hot, and complementary to the regular sessions. The special session should be able to generate enthusiasm among the ESWEEK participants. Proposals should be submitted before the deadline of **April 30, 2021**.

**Submission Details:** A 2-page maximum PDF file, including the following information:

- Title of the special session.
- Description of the topics that the special session will address, how the special session complements the reviewed paper sessions in ESWEEK, and why the theme of the special session is relevant.
- Expected format of the special session (invited presentations, panel discussions, or other ideas to promote active exchange of ideas especially in a virtual format).
- Organizers with short bio, affiliation, and their expertise in the proposed topic(s).
- In case the organizers are not presenters, names of the presenters with short bio, affiliation, and their expertise in the proposed topic(s).

Please submit your special session proposal through the SoftConf website <https://www.softconf.com/l/esweek21-st> If you have any questions about the submission of the **ESWEEK 2021 Special Session proposals** please contact Paul Bogdan, University of Southern California, US, at [pbogdan@usc.edu](mailto:pbogdan@usc.edu). The participants of each accepted special session will have the opportunity to co-author a single overview paper (maximum 10 pages) of the special session. This will be published in the ESWEEK 2021 proceedings.
