

# Embedded Systems Week

[www.esweek.org](http://www.esweek.org)

October 10-15, 2021  
Virtual Conference

## Call for Tutorial Proposals

- CASES
- CODES+ISSS
- EMSOFT
- NOCS
- Workshops
- Tutorials

### About Embedded Systems Week (ESWEEK)

Embedded Systems Week (ESWEEK) is the premier event covering all aspects of hardware and software design for smart, intelligent and connected computing systems. By bringing together three leading conferences (CASES, CODES+ISSS, EMSOFT), a symposium (NOCS), and hot-topic workshops and tutorials, ESWEEK allows attendees to benefit from a wide range of topics covering the state of the art in embedded systems research and development.

### One Registration for Conferences, Symposium and Workshops

Registered attendees can attend sessions in any of the three conferences (CASES, CODES+ISSS, and EMSOFT), the NOC symposium, workshops, and tutorials.

### Tutorial Proposals:

April 30, 2021

### Conference:

October 10-15, 2021

**Covid-19 planning:** Given the continued uncertainty, the next ESWEEK is currently planned as a virtual event. We will, however, closely monitor the situation and if it improves significantly consider a hybrid in-person/virtual event in an appropriate location and venue that will be announced well in advance. In all cases, virtual attendance and remote presentations of accepted papers will be possible. Please watch the website or social media channels for updates.

## Tutorial Proposals

For ESWEEK 2021, we invite you to submit high-quality, timely tutorials to enrich the technical program. Tutorials offer a unique opportunity where presenters can interact closely with attendees, and attendees can gain in-depth knowledge on a specific topic. Tutorials on all topics related to embedded system design, analysis and development are welcome. ESWEEK 2021 tutorials will take place on Sunday, October 10, and can be either half day or full day lecture style events or hands-on labs. Proposals should be submitted before the deadline of **April 30, 2021**.

**Submission Details:** A 2-page maximum PDF file, including the following information:

- Title of the tutorial
- Abstract (max. 500 words) describing motivation, intended audience, and main contents.
- Organizers and instructors with short bios, affiliations, and expertise in the proposed topics.
- List of topics to be covered.
- Length and format of the tutorial (lecture, hands-on), and how you plan to deliver it virtually, e.g., how will attendees access any necessary software and interact with instructors?
- If the tutorial has been offered previously, please specify the conference, date, and number of attendees.

Please submit your tutorial proposal through the SoftConf website <https://www.softconf.com/l/esweek21-st>. If you have any questions about the submission of the **ESWEEK 2021 Tutorial proposals** please contact Timothy Bourke, Inria, France, at [timothy.bourke@inria.fr](mailto:timothy.bourke@inria.fr).
