Call for Education Classes

About Embedded Systems Week (ESWEEK)

Embedded Systems Week (ESWEEK) is the premier event covering all aspects of hardware and software design for smart, intelligent and connected computing systems. By bringing together three leading conferences (CASES, CODES+ISSS, EMSOFT), two symposia (MEMOCODE, NOCS), several workshops, tutorials, and education classes, ESWEEK allows attendees to benefit from a wide range of topics covering the state-of-the-art in embedded systems research and development.

One Registration, Three Conferences!

Registered attendees can attend sessions in any of the ESWEEK conferences (CASES, CODES+ISSS, EMSOFT). Please note that tutorials, education classes, symposia (MEMOCODE, NOCS), and workshops may use separate registration.

Proposals for Education Classes:
March 20, 2023 (midnight AOE)

Education Classes:

September 14-15, 2023

Conferences:

September 17-22, 2023

Workshops:

September 21-22, 2023

ESWEEK 2023 will be an in-person event, taking place in Hamburg, Germany. We will continue to monitor specific travel advisories through official channels, which include the World Health Organization (WHO) and the local Ministry of Health. Please refer to the conference web-site and social media channels for updates.

Education Proposals

ESWEEK 2023 will host several education lectures on a virtual platform on September 14 & 15th and is soliciting proposals for interesting lectures. The theme of this year's Education lectures is '**Domain-Specific Hardware and Software**'. We invite you to submit education proposals on a topic related to this theme. ESWEEK education talks present an excellent opportunity to disseminate fundamental knowledge about a topic. The intended audience for these **2-hour topic classes** are expected to have a bachelor's degree in CS, EE or a closely related area. These may be graduate students not necessarily working or researching in embedded systems or industry professionals who want to acquire skills in this area. Proposals should be submitted before the **deadline of March 20, 2023 (midnight AOE)**.

Submission Details:

2-page maximum PDF file, including the following:

- A concise title of the lecture.
- Description of the topics and the content that the lecture will address, how the lecture fits in the theme and complements ESWEEK conferences and symposium, and why the lecture topic is relevant.
- Expected duration (one or two 2-hour sessions can be requested) and format of the lecture, including labs/hands-on sessions to engage the audience.
- Speaker(s) with short bio, affiliation and their expertise in the proposed topic(s).

Please submit your education proposal by email to the ESWEEK 2023 Education Chair Anup Das (Email: anup.das@drexel.edu) with "[ESWEEK 2023] Education Proposal" on the e-mail subject line.

ESWeek General Chairs:

Xiaobo Sharon Hu, University of Notre Dame, USA
Alain Girault, INRIA, France

ESWEEK Education Chairs:

Anup Das, Drexel University, USA
Qingfeng (Karen) Zhuge, East China Normal University, China
